## CONDITIONS OF SALE.

---

- FIRST.—The highest bidder to be the buyer; and if any dispute arise between two or more bidders, the lot so in dispute shall be immediately put up again and re-sold, provided the auctioneer cannot decide the said dispute.
- SECOND.—No person to advance less than a 1s., above five pounds, 5s.; and so on in proportion.
- THIRD.—In the case of lots upon which there is a reserve, the auctioneer shall have the right to bid on behalf of the seller.
- FOURTH.—The purchasers to give in their names and places of abode, and to pay down 5s. in the pound, or more in part of payment, or the whole of the purchase-money, *if required*; in default of which the lot or lots so purchased to be immediately put up again and re-sold.
- FIFTH.—The lots to be taken away and paid for, whether genuine and authentic or not, with all faults and errors of description, at the buyer's expense and risk, within TWO days from the sale; GLENDINING & CO., LTD., not being responsible for the correct description, genuineness, or authenticity of, or any default or defect in, any lot, and making no warranty whatever.
- SIXTH.—To prevent inaccuracy in delivery, and inconvenience in the settlement of the purchases, no lot can on any account be removed during the time of sale, and the remainder of the purchase-money must absolutely be paid on the delivery.
- SEVENTH.—Upon failure of complying with the above conditions, the money deposited in part of payment shall be forfeited; all lots uncleared within the time aforesaid shall be re-sold by public or private sale, and the deficiency (if any) attending such re-sale shall be made good by the defaulter at this sale.

*A charge of 1/- per day will be made on any lots left after three days from date of sale.*

Lot

50/- 143 One of the very early pattern of chemical fire extinguishers. This quaint appliance is of the soda acid type and is operated by an external blow from the suspended hammer, the resulting concussion being sufficient to smash the internal glass bottle of acid. This extinguisher is estimated to be not less than 50 years old

144 Three early copper branch pipes as originally designed for use with the old type manual and steam operated fire engines. They were in general use until about 1875, when the type was discarded in favour of the standard 18in. branch now generally used throughout the Fire Service. There are but very few of these long branch pipes now in service and this special type is but rarely found

6/- 145 An important **scale model fire escape**, *circa* 1850, probably made to illustrate patentee's improvements, the model has double ladders, collapsible stairs, a shoot, cables, etc. 1

1/- 146 A fireman's early helmet of leather, the crown ribbed, the brim with projecting piece to protect neck, made by Cairns and Bros., New York
